

Dual Frequency RFID Cards LF-UHF

Model LF-UHF RFID CARDS · Brand: Identium

An ISO-format badge combining a 125 kHz proximity chip with a UHF EPC Gen2 chip, for sites that want long-range vehicle or gate reads without replacing their existing LF door readers.

KEY FEATURES

- **125 kHz LF chip for installed proximity door readers**
- **UHF EPC Class 1 Gen 2 chip for long-range identification**
- UHF side read by readers on India's 865–868 MHz band
- Adds parking and gate reads without replacing LF readers
- Supplied with or without a magnetic stripe

APPLICATIONS

Staff parking gates

Boom barrier entry

Proximity door access

Industrial estate gates

Logistics yard entry

Campus vehicle lanes
