HF RFID Cable Tie Tag for i3MS Mine Sampling Bags

Model CABLE TIE TAG · Brand: Identium

An RFID cable tie tag used to close and identify mineral sampling bags under Odisha's i3MS system, where RFID tagging of sampling bags at iron ore and chromite mines replaced QR codes from 15 June 2023. Available in four colours.

KEY FEATURES

- **Cable tie with an RFID tag head: closes and tags a sampling bag in one step**
- **Used for i3MS sampling-bag tagging at Odisha iron ore and chromite mines**
- RFID tagging of sampling bags mandatory from 15 June 2023
- Four colours: red, blue, green and white

APPLICATIONS

Mine sampling bags | Iron ore sampling | Chromite sampling | Sample chain of custody
