LF RFID Coin Tag (125 kHz, 25 mm × 1.2 mm PVC)

Model LF TAG · Brand: Identium

A thin 125 kHz RFID coin in PVC, 25 mm across and only 1.2 mm thick. Its read-only, ISO 11784/11785 compliant chip suits fitting inside keyfobs, tokens and products where a thicker tag will not fit.

KEY FEATURES

- **Only 1.2 mm thick and about 0.9 g, easy to embed or fix flat**
- **25 mm outer diameter with a PVC encasement**
- 125 kHz read-only IC with a fixed ID, no encoding needed
- ISO 11784/11785 standard compliant protocol

APPLICATIONS

Keyfob inserts | Moulded-in product ID | Access control tokens | Asset identification
