RFID Pet Identification tag

Model PETID · Brand: Identium

A programmable 13.56 MHz NFC collar tag for dogs and cats. Anyone who finds the pet taps it with a smartphone to open the owner's contact or pet profile. Custom size, print and logo for pet shops, clinics and brands.

KEY FEATURES

- **NFC at 13.56 MHz, ISO 14443A: read by NFC smartphones**
- **Programmable with a pet profile, owner contact or lost-pet page link**
- No battery: the finder's phone powers the tag during the tap
- PVC or PET material, size made to order
- Silkscreen, offset or digital printing with your logo
- Available under your own brand (OEM)

APPLICATIONS

Lost pet recovery | Pet shop retail | Veterinary clinic giveaways | Pet brand OEM
