

RFID Event Management System for Entry Control & Cashless POS

Model RFID Event Management Solution · Brand: Identium

An RFID entry, cashless payment and reporting system for trade fairs, festivals and family entertainment centres. Visitors enter with an RFID ticket or wristband, pay from a preloaded balance and organisers see live reports.

KEY FEATURES

- **RFID tag or label in the entry ticket, or an RFID wristband**
- **Reader antenna at the gate logs each entry to the server**
- Cashless POS: preloaded money, admissions, food & beverage, packages
- Real-time reports and analytics on visitor and sales trends
- Wristbands in LF, HF or UHF, custom-made for your event
- Wi-Fi readers for fast deployment

APPLICATIONS

Trade fairs & exhibitions

Family entertainment centres

Festivals & concerts
