

RFID Guard Patrol Tag IDTS-LPT (125 kHz / 13.56 MHz / NFC)

Model LPT · Brand: Identium

A round ABS checkpoint tag for guard tour systems, made with a 125 kHz, 13.56 MHz or NFC chip to match the patrol wand or phone your guards already carry. Five sizes from 25 to 50 mm, in black or white.

KEY FEATURES

- **Chip choice:** 125 kHz LF, 13.56 MHz HF or NFC
- **Five diameters:** 25, 30, 35, 40 and 50 mm
- Black or white ABS housing
- Fix with a screw through the centre hole or with 3M adhesive backing
- Laser or silk-screen printing of checkpoint numbers on request

APPLICATIONS

Guard tour checkpoints

Factory perimeter patrols

Housing society rounds

Hotel and campus security

Maintenance rounds
