RFID Marathon Bibs

Model MARATHON BIB · Brand: Identium

A race number bib with a built-in UHF RFID chip, printed with the runner's number, event branding and sponsor logos. The bib itself is the timing tag, so participants need no separate shoe tag.

KEY FEATURES

- **Impinj Monza R6 chip, UHF EPC Gen 2**
- **Tyvek or polyester bib**
- Full-colour print: race number, event branding, sponsor logos
- No separate shoe tag to fit, lose or return
- Faces forward towards the finish-line antennas
- Optional printed barcode as a manual-scan backup

APPLICATIONS

Marathons | Half marathons | 10K and 5K runs | Cycling events | Obstacle races | Corporate runs
