RFID Race Timing Services

Model Race Timing System Services · Brand: Identium

A managed RFID race timing service for marathons, runs and multi-sport events. The automatic timing system, tagged bibs, antennas, readers and other machinery are included, and the charge is calculated per participant.

KEY FEATURES

- **Automatic race timing with the complete timing system**
- **Numbered bibs with RFID tags included**
- Antennas, readers and all timing machinery included
- Charged per participant, so cost follows your field size
- Tags encoded and matched to bib numbers before handover
- UHF 865–868 MHz, EPC Gen2 / ISO 18000-6C

APPLICATIONS

City marathons · Half marathons · Corporate 5K and 10K runs · College athletic meets · Charity walks · Cycling sportives · Trail runs
