

RFID Waste Management tags

Model UMT · Brand: Identium

A rugged, fixed-mount ABS RFID tag for household and commercial waste bins, with a UHF or HF chip, so every door-to-door pickup can be scanned and logged against the bin it came from.

KEY FEATURES

- **UHF or HF chip, matched to your collection readers**
- **Rugged ABS body, about 10 g, fixed to the bin**
- Operates from -20°C to $+85^{\circ}\text{C}$
- Passive tag: no battery to replace or charge
- Packed 200 pieces per bag
- Door-to-door collection mobile and web app available

APPLICATIONS

Door-to-door waste collection

Municipal bin tagging

Housing society bins

Shop and commercial bins

Bulk waste generators

Ward-level collection audits
