

2 Wheeler RFID Tag

Model 2WL · Brand: Identium

A thin, flexible 110 × 40 mm UHF RFID sticker for motorcycles and scooters, fixed on the headlight fairing or visor so parking barriers and campus gates can identify two-wheelers automatically.

KEY FEATURES

- **Thin and flexible to follow curved fairings and visors**
- **Slim 110 × 40 mm profile with automotive-grade acrylic adhesive**
- IP66 rated; works from –30 °C to +85 °C
- Reads at 1–4 m at parking and gate lanes
- Impinj Monza R6 or Alien Higgs 9 chip, EPC Gen2 / ISO 18000-6C

APPLICATIONS

Two-wheeler parking access

Society gate management

College campus registration

Office two-wheeler parking

Service centre fleet tracking
