

Reusable RFID Jewellery Tag

Model UHF RFID HARD JEWELLERY TAG · Brand: Identium

A small, durable RFID tag that clips onto jewellery hangers and ring holders or threads through display holes, and is removed, re-encoded and reused as pieces sell and new stock arrives.

KEY FEATURES

- **Snap-on or string-loop fixing, no adhesive on the jewellery**
- **Compact body, typically 18–25 mm**
- UHF (865 MHz band) or HF (13.56 MHz, ISO 15693)
- EPC can be rewritten when the tag moves to a new item
- White surface for printed item description or price

APPLICATIONS

Showroom stock rotation

Ring holders and hangers

Display tray audits

Jewellery exhibitions

Counter stock checks
