

UHF Tamper Proof Windshield Label

Model IDTS-UTWTH3 · Brand: Identium

A self-adhesive UHF RFID windshield label that is fixed inside the windscreen and cannot be moved to another vehicle intact. For parking operators, gated campuses, factories and transport yards identifying vehicles at a boom barrier.

KEY FEATURES

- **Tamper-proof: cannot be peeled off and refitted intact**
- **Reads over 8–10 m when fixed inside the windshield**
- Unique serial number and matching barcode printed on the front
- Flexible label with self-adhesive tape for quick fitting
- Hands-free vehicle identification at barriers and lanes

APPLICATIONS

Parking access control

Housing society gates

Factory vehicle gates

Electronic toll collection

Fleet and transport yards

Vehicle security checks
