

# Industrial UHF RFID Printer and Encoder iX4R (4-Inch)

Model iX4R Industrial RFID Printer · Brand: Identium

An industrial label printer with a built-in UHF RFID encoder for high-volume label runs in warehouses, distribution centres and factories. Prints 104 mm wide at up to 14 inches per second and encodes EPC Gen 2 tags as it prints.

## KEY FEATURES

- **Integrated UHF encoder (860–960 MHz, EPC Gen 2): print and encode in one pass**
- **Up to 14 inches per second across a 104 mm (4-inch) print width**
- 203 dpi / 300 dpi print resolution
- 3.5-inch colour LCD touch screen
- USB, RS-232, RJ45 Ethernet and Wi-Fi connectivity
- Automatic calibration detects label length and gap

## APPLICATIONS

Warehouse goods-in labels

Despatch carton labels

Retail DC hang tags

WIP traveller tags

Asset tag runs

## SPECIFICATIONS

|              |                                          |
|--------------|------------------------------------------|
| Model        | iX4R                                     |
| Type         | Industrial RFID printer and encoder      |
| Print width  | 104 mm (4 inch)                          |
| Print speed  | Up to 14 ips                             |
| Resolution   | 203 dpi / 300 dpi                        |
| RFID encoder | Integrated UHF, 860–960 MHz              |
| Protocol     | EPC Gen 2                                |
| Display      | 3.5-inch colour LCD touch screen         |
| Interface    | USB, RS-232, RJ45 Ethernet, Wi-Fi        |
| Calibration  | Automatic label length and gap detection |
