

NFC Coin Tag 10mm – NTAG213 Circular Mini NFC Sticker

Model ID-NFC-213-10 · Brand: Identium

A 10 mm round NFC sticker with an NXP NTAG213 chip and permanent adhesive, for objects too small for a standard NFC tag: jewellery clasps, pen caps, keyrings, collectibles and compact packaging.

KEY FEATURES

- **10 mm diameter with permanent peel-and-stick adhesive**
- **NXP NTAG213: NFC Forum Type 2, ISO 14443A, 13.56 MHz**
- 144 bytes of NDEF memory for a short URL, text or contact
- 32-bit password to write-protect or fully lock the data
- Read by touching an NFC phone to the tag (0–2 cm)
- Supplied blank or encoded with your URL or unique ID

APPLICATIONS

Jewellery authentication

Collectibles and limited editions

Medical device identification

Cosmetic tube packaging

Premium cards and gift boxes
