

NFC Epoxy Table Tag IDTS-NTT50 for Tap-or-Scan Menus (50 mm)

Model IDTS-NTT50 · Brand: Identium

A tap-or-scan table tag for restaurants and cafés: a 50 mm round epoxy disc with an adhesive back, printed with your logo, a QR code and a “tap or scan for menu” prompt, so guests open your menu by NFC tap or camera scan.

KEY FEATURES

- **50 mm PVC disc with an epoxy surface; other diameters made to order**
- **13.56 MHz HF NFC, ISO/IEC 14443A; chip type confirmed with your order**
- Full-colour face: your logo, QR code and a “tap or scan for menu” prompt
- Adhesive back for clean, flat table tops; adhesion varies by surface
- Waterproof and weatherproof; try samples on outdoor tables first
- One link, two routes: NFC tap for phones with NFC, the printed QR for the rest

APPLICATIONS

Restaurant table menus

Café self-ordering

Hotel room-service menus

Bar and lounge tables

Food court seating

Customer review prompts

Social media links

Pay-at-table links

SPECIFICATIONS
