

# Wall / Pole Mounting Bracket for Integrated RFID Readers (IF9A-Size)

Model — · Brand: Identium

A steel bracket for mounting an integrated UHF reader, the type with the antenna built into the housing, on a wall, a gantry or a pole beside a vehicle lane. Sized for the IF9A and IF9C family; the tilt is set at installation and locked.

## KEY FEATURES

- **Wall screws or pole U-bolts; state the surface and pole diameter**
- **Suits IF9A and IF9C-size integrated readers (confirmed against the reader model)**
- Tilt set once at installation and locked
- Steel, powder-coated, typical for the class
- Keeps the reader's face aimed at the lane or doorway

## APPLICATIONS

Boom-barrier and parking lanes

Gate and doorway readers

Gantries

Factory entrances
