

Thermal-Transfer Ribbon, Wax-Resin, 110 mm × 300 m, for RFID Label Printers

Model — · Brand: Identium

A wax-resin thermal-transfer ribbon, 110 mm wide and 300 m long, for printing text, barcodes and logos onto paper and coated RFID labels in 4-inch RFID printers. The general-purpose grade: more scratch resistance than pure wax, cheaper than full resin.

KEY FEATURES

- **Wax-resin grade for paper and coated-paper RFID labels**
- **110 mm wide × 300 m long: covers the 104 mm print width of a 4-inch printer**
- Black; other colours on request
- Core size and ink side (coated side in or out) matched to your printer
- For 4-inch printers such as the iX4R; other printers, including the IT4RL, confirmed at order
